

## BENEFITS FOR CONTRACTORS

# CONTRACTORS

### Safer and faster to work with than traditional spray foam

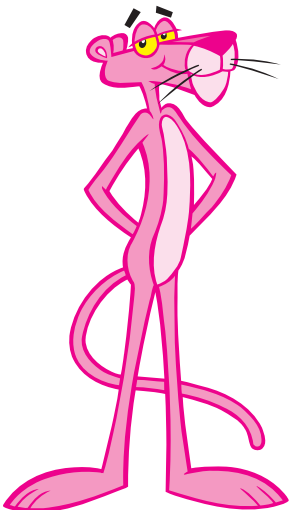

- Avoid the health risks of traditional spray foam
- Eliminate the need for special respiratory protection
- Install without harmful off-gassing during application and curing
- Increases job site productivity because other trades can work around you during installation
- Insulation may be installed in as little as 20 minutes after application of the EnergyComplete™ Air Infiltration Barrier with Flexible Seal Technology
- Patents-pending EnergyComplete™ Air Infiltration Barrier applies cleanly, and does not require shaving, extra cleanup or preparation work
- Proprietary sprayer is portable, automatically mixes the 2-part sealant, and requires minimal cleaning and maintenance

### Allows you to offer a sustainable solution

- The EnergyComplete™ System was created in response to builder and home buyer needs for affordable green solutions
- Contributes points to the prescriptive or performance paths in programs such as ENERGY STAR®, LEED® for Homes and the NAHB National Green Building Standard
- Owens Corning PINK FIBERGLAS™ Insulation and EnergyComplete™ Air Infiltration Barrier are GREENGUARD Certified for Indoor Air Quality and GREENGUARD Certified for Children & Schools
- A low installed cost makes the system accessible for most homes

### Builds new revenue opportunities with lower up-front investment

- Allows you to offer an advanced solution for air sealing and insulation
- A safe-to-install alternative to full cavity traditional spray foam at a much lower installed cost
- Low equipment investment vs. traditional spray foam
- Equipment financing options are also available. Check with your local Owens Corning representative for more details
- Provides opportunities for increased business and higher incremental margin per home

## CONTRACTORS

**Helps grow your business**

- Differentiate your business by offering a safe-to-install, affordable solution for insulation and air sealing
- System is offered only by Owens Corning certified EnergyComplete™ System contractors
- Receive training, marketing and advertising support from Owens Corning
